# MID CENTURY

A mid-century sofa typically refers to a style of sofa that was popularized during the mid-20th century, roughly from the 1930s to the 1960s. It's characterized by clean lines, minimal ornamentation, and functionality.

## WHERE COMFORT MEETS DESIGN

Chesterfield leather sofas are iconic pieces of furniture known for their distinctive design and luxurious appearance.

The construction of Chesterfield sofas often involves meticulous craftsmanship, with attention to detail in the tufting, stitching, and overall finish. This craftsmanship ensures that Chesterfields are not only beautiful but also built to last.

Since 19th century the Chesterfield has been a symbol of comfort and luxury in homes across continents.

The materials used in Chester's Construction ensure the quality and longevity of each
